Our Mission

To provide quality education, accessible to all, irrespective of their class, creed, gender, special abilities, intellectual inclinations and geographical positioning, wanting to experience and learn the basics of education and life skills.

Infrastructure

Learning can only take place successfully in a caring and orderly community. Our school provides an environment in which the young people are expected to work hard and share in the ethos and values of the school. Our society is competitive, and we teach our children to function in competition and how to both win and lose as good sports person. We are committed to the belief that it is very important to offer as many opportunities as possible to our students to gain experience from learning outside the classroom. An extensive array of enrichment and extra-curricular activities is offered. Partnerships have been developed locally, nationally and internationally which extend opportunities for all. In order to "shine like stars" in this generation our students are given the opportunities and protection necessary to allow them to aim for their potential in a focused environment. We count it a privilege to be part of this community, of preparing our young people during their vital developing years to meet the challenges of life and to honor God through their lives.

Institute Of Sport (IOS)

- Mission - "To provide quality coaching and cricketing facilities for any individual or team wanting to experience and learn the skills of cricket and its unique cultures in a variety of different countries."

Cricket Development Programme

- Is a development programme, for individuals from all over the world, wanting to learn and experience playing cricket in a new culture and environment.
- The programme is focused primarily on coaching and constant practice.
- The IOS treats the cross-cultural interaction as an integral part of its programme, leading to the growth of tomorrow's cricketers and youth.
